PROFESSIONAL SUMMARY

BS Information Technology graduate with hands-on experience in IT support, network monitoring, and troubleshooting through an IT Support internship. Builds web-based projects using modern frontend and backend technologies, with project experience in inventory management, weather applications, and a personal portfolio. Interested in applying technical problem-solving, software development, and user-focused support skills in an entry-level IT or development role.

TECHNICAL SKILLS

Development: React, JavaScript, HTML, CSS, Node.js, Express.js
Databases & Tools: MySQL/MariaDB, MongoDB, Git, GitHub, Vercel, EmailJS
IT Support: Hardware/software troubleshooting, network monitoring, router/modem setup and testing, customer support
Other: Inventory management concepts (EOQ and ROP), technical documentation

TECHNICAL PROJECTS

iSTAKK – Inventory Management System | BSIT Capstone

Developed a CRUD-based inventory management system concept focused on improving stock monitoring and replenishment.

- Applied Economic Order Quantity (EOQ) and Reorder Point (ROP) concepts to support stock replenishment decisions.
- Designed features for product tracking and reports covering stock levels, sales trends, and supplier performance.

Personal Portfolio Website | React, Vite, EmailJS, Vercel

Built and deployed a personal portfolio to present web development projects, technical skills, and video-editing work.

- Integrated an EmailJS-powered contact form and deployed the site through Vercel.
- GitHub: github.com/aashocks/portfolio-main

Weather App | React

Built a React weather application with a component-based interface and weather-condition icon mapping.

- Organized weather visuals and interface assets for conditions such as clear, cloudy, rain, drizzle, and snow.
- GitHub: github.com/aashocks/weather-app-react

NexChat | React, Node.js, Express, MongoDB, Clerk

Developing a real-time messaging application with user authentication and chat functionality.

- Worked with a React frontend and an Express backend, integrating authentication and MongoDB-based data handling.

WORK EXPERIENCE

IT Support Intern | Galaxy Cable Corporation *May 2023 – Oct 2023*

- Provided customer support through phone calls and email, assisting with technical concerns.
- Monitored network systems and tested internet router functionality.
- Assisted with the setup, configuration, and testing of routers and modems before deployment.
- Reported recurring technical issues and provided feedback to senior IT staff.

EDUCATION

Bachelor of Science in Information Technology | *Oct 2023 – Mar 2025*

Polytechnic University of the Philippines – Sto. Tomas Branch — Completed through the ladderized program; BSIT capstone: iSTAKK Inventory Management System with EOQ and ROP.

Diploma in Information and Communications Technology | *Sep 2020 – Oct 2023*

Polytechnic University of the Philippines – Sto. Tomas Branch — Specialization in Information and Communications Technology.
